

# CERTIFIED FIRE PROTECTION SPECIALIST (CFPS)

Certification Preparation Course

## MASTER FIRE PROTECTION WITH REDA HAZARD CONTROL

### INTRODUCTION

Ready to become a globally recognized fire protection expert? The CFPS credential helps you master fire safety and advance your career. At REDA Hazard Control, we offer expert-led training for success. Join thousands of professionals who've earned this prestigious NFPA certification. Start your journey today!

### WHY CFPS?

- **Global Recognition:** Since 1971, CFPS has been the gold standard for fire protection expertise, recognized by employers and regulators across 50+ countries.
- **Career Boost:** Elevate your profile in fire safety engineering, risk management, and loss prevention, opening doors to leadership roles and higher pay.
- **Key Skills:** Gain mastery over NFPA codes (e.g., 101, 13), fire behavior analysis, suppression system design, and hazard mitigation strategies.

### WHAT REDA OFFERS

- **Comprehensive Training:** Covers the NFPA Fire Protection Handbook (21st Edition)—the only resource allowed in the exam—spanning fire science, codes, and practical applications.
- **Expert-Led Sessions:** Live, interactive classes with REDA's seasoned instructors, offering real-world insights and personalized feedback.
- **Practice Exams:** Multiple timed tests mimicking the 100-question, 3-hour exam format, with detailed answer reviews to ensure readiness.
- **Support Tools:** Access to digital study guides, NFPA code summaries, and instructor Q&A sessions tailored to your needs.

### STEPS TO SUCCESS

1. **Eligibility:** Requires a Bachelor's degree in a related field + 2 years of fire protection experience, or a high school diploma + 6 years of verifiable fire loss prevention work.
2. **Enroll:** Sign up with REDA Hazard Control and join a structured, instructor-led program starting weekly.
3. **Pass:** Prepare with REDA's rigorous training to succeed in the open-book exam, administered via Prometric testing centers (in-person or remote).
4. **Certify:** Earn your CFPS credential, valid for 3 years, and maintain it with 3 CEUs (30 hours) of continued learning—REDA can help with that too!

### TAKE ACTION

- **Call us:** Our sales team is ready to meet with you to discuss how you can design your course in collaboration with them.
- **Get a Quote:** Contact us for further information or to receive a personalized quote.

### IN SUMMARY

Take charge of your fire protection career with REDA Hazard Control. Enroll today and unlock your CFPS potential!
