

NFPA 70E® ELECTRICAL SAFETY IN THE WORKPLACE®

(2024 Edition) Analysis of NEC Changes - 1 and 2-days

SHOCK HAZARD ⚡ SHOCK HAZARD

SUCCEED IN WORKPLACE SAFETY WITH REDA HAZARD CONTROL

INTRODUCTION

Want to protect your workplace from electrical hazards? NFPA 70E® (2024 Edition) provides practices to reduce risks like shock and arc flash. REDA Hazard Control's 1- and 2-day courses cover NEC changes, blending NFPA 70E® and 70B insights. Equip yourself to safeguard employees with expert training. Take the first step now!

WHY NFPA 70E® (2024 EDITION)?

- **Safety Standard:** Updated for 2024, NFPA 70E® provides practices to minimize electrical risks, aligned with NFPA 70® (NEC®) and 70B for safety.
- **Workplace Protection:** Reduce injuries, fatalities, and costly fines by understanding hazards and NEC changes affecting employee safety protocols.
- **Key Skills:** Learn risk assessment, PPE selection, lockout/tagout, and maintenance considerations tied to the Electrical Cycle of Safety™.

WHAT REDA OFFERS

- **Flexible Training:** Choose 1-day (overview) or 2-day (in-depth) live virtual sessions, covering NFPA 70E® 2024 updates and NEC change impacts on workplace safety.
- **Expert-Led Sessions:** Interactive classes with REDA's top instructors, analyzing NEC revisions (e.g., grounding, overcurrent protection) and their 70E® applications.
- **Practice Tools:** Includes case studies, hazard analysis exercises, and digital resources like NFPA 70E® excerpts and maintenance checklists from NFPA 70B.
- **Support:** Ongoing instructor access and Q&A to master safe work practices and integrate maintenance conditions into your Electrical Safety Program.

STEPS TO SUCCESS

1. **Eligibility:** Ideal for safety managers, electricians, and supervisors; no prerequisites—just a commitment to workplace safety.
2. **Enroll:** Sign up for REDA Hazard Control's 1- or 2-day course, offered monthly with scheduling options to fit your needs.
3. **Learn:** Gain expertise in NFPA 70E® 2024 and NEC changes through REDA's practical, instructor-led training, enhancing safety and compliance.
4. **Apply:** Implement safe work practices and maintenance strategies to protect employees, property, and processes from electrical hazards.

TAKE ACTION

- **Call us:** Our sales team is ready to meet with you to discuss how you can design your course in collaboration with them.
